# Outpatient

p. 1 Required Procedures and Coding Guidelines

**Previous:**

The ambulatory/outpatient procedure was performed in any of the following locations within a hospital facility or freestanding ambulatory surgery center: general operating room, ambulatory surgery room, short-term procedure unit, endoscopy or GI lab/unit, cardiac catheterization laboratory, radiology department, outpatient oncology unit, etc. The names of the locations/units listed above are intended to be used as general terms. Location names may differ from facility to facility.

**Current:**

The ambulatory/outpatient procedure was performed in any of the following locations within a hospital facility or freestanding ambulatory surgery center: general operating room, ambulatory surgery room, short-term procedure unit, endoscopy or GI lab/unit, cardiac catheterization laboratory, radiology department, outpatient oncology unit, or similar locations. The names of the locations/units listed above are intended to be used as general terms. Location names may differ from facility to facility. Emergency room claim records should not be submitted.
