*NOTE: UB92 refers to the 1992 version of the modified Uniformed Claims and Billing Form adopted for use by the Council. This specifies data elements, definitions, and standard file format used by data sources for meeting regulatory requirements.*

(Intentionally left blank)

# Definitions

A facility is deemed compliant when they have met the following criteria:

- The data submission is received on or before the original due dates as follows:

Quarter Ends	Submission Due Date
March 31	June 30
June 30	September 30
September 30	December 31
December 31	March 31

- Passed initial edit process for proper format and readability
- UB92 error rate is 15% or less
- Ninety Percent of the Atlas™-derived records were received and matched by the original due date

All facilities are considered compliant for each quarter denoted with a checkmark (✓). The only exceptions are for those facilities that followed the Request for Exceptions policy under the Health Care Cost Containment (Act 14 of 2003) and had the request approved by the Council.

The following are definitions used in the 45-day status sections of this report.

- No Data:** The facility did not submit UB92 discharge data to PHC4.
- Failed:** The facility submitted UB92 data to PHC4, but for some reason the media was not properly formatted or otherwise unreadable.
- E – XXX%:** The facility submitted UB92 data to PHC4, but had an error rate that exceeded the allowable maximum of 15%. This rate is calculated by dividing the number of records with at least one error by the total number of records submitted. The error rate is displayed.
- E – NAIC:** The facility submitted UB92 data to PHC4, but had an excessive percentage of blank NAIC Codes.
- XX Days Late:** The facility submitted UB92 data to PHC4 after the original due date. Days late refers to the number of days between the original due date and the date of the acceptable submission.
- I – XXX%:** The facility did not submit or match the minimum number of Atlas™-derived records by the straggler date. The straggler date, which is approximately six weeks after the original due date, is intended to give facilities an opportunity to correct and/or add records to their original submission. The match rate is displayed.
- Late:** The facility did not submit or match the minimum number of Atlas™-derived records by the original due date.

Currently, the required number of Atlas™-derived records is defined as matching 90% of the UB92 data submission to the list of 35 diseases, procedures and medical conditions which can be found on the PHC4 Web site at <http://www.phc4.org/dept/dc/list35.htm>.

n=56 Facilities

*Facilities on this list not only met all the compliance criteria, but were also in the top 20% of the lowest initial submission error rates. Additionally, these facilities met all the original due dates without needing any type of extension.*

**No Inpatient  
UB92 Submission for First Quarter 2005  
(Status 45 Days After Due Date)**

This is the eighth time PHC4 has received a readable Inpatient Data Submission from every facility required to submit data. We want to congratulate every facility on a job well done and hope this continues in the future.
