

Top Reasons for Admission among Super-Utilizers in FY 2014, by PA County

Reasons are categorized according to patients' principal diagnoses and are based on a modification of the Agency for Healthcare Research and Quality's Clinical Classifications Software (CCS). The top three categories are displayed for each county and are sorted by the number of admissions. More than three categories are shown when ties (displayed alphabetically) occur for third place.

	Reason	Number of Admissions
Adams	Septicemia	79
	Heart failure	64
	Chronic obstructive pulmonary disease (COPD)	44
Allegheny	Heart failure	969
	Mental health disorders	927
	Alcohol/substance abuse disorders	807
