## Ambulatory Surgery Centers

An Annual Report on the Financial Health  
of Pennsylvania Ambulatory Surgery Centers

Volume Two

Pennsylvania Health Care Cost Containment Council

---

## About PHC4

*The Pennsylvania Health Care Cost Containment Council (PHC4) is an independent state agency charged with collecting, analyzing, and reporting information that can be used to improve the quality and restrain the cost of health care in the state. It was created in the mid-1980s when Pennsylvania businesses and labor unions, in collaboration with other key stakeholders, joined forces to enact market-oriented health care reforms. As a result of their efforts, the General Assembly passed legislation (Act 89 of 1986) creating PHC4.*

*PHC4's primary goal is to empower purchasers of health care benefits, such as businesses and labor unions, as well as other stakeholders, with information they can use to improve quality and restrain costs. More than 840 thousand public reports on patient treatment results are downloaded from the PHC4 website each year. Additionally, nearly 100 organizations and individuals annually utilize PHC4's special requests process to access and use data. Today, PHC4 is a recognized national leader in public health care reporting.*

*PHC4 is governed by a 30-member board of directors representing business, labor, consumers, health care providers, insurers, and state government.*

---

# FINANCIAL ANALYSIS

On an annual basis, the Pennsylvania Health Care Cost Containment Council (PHC4) has produced a series of financial reports measuring the financial condition and utilization of the Commonwealth’s hospitals and ambulatory surgery centers.

This is the second volume of a three-volume series of *Financial Analysis 2021* report. *Volume One*, released in June 2022, focused on the financial health of Pennsylvania’s general acute care (GAC) hospitals. This report, *Volume Two*, presents financial information about Pennsylvania’s ambulatory surgery centers (ASCs). *Volume Three*, to be released later this year, will focus on Pennsylvania’s non-GAC (rehabilitation, psychiatric, long-term acute care, and specialty) hospitals.

The data for the ASCs included in *Volume Two* is based on each facility’s fiscal year that ended during 2021. The fiscal year for most ASCs was calendar year ending December 31, 2021. For those facilities that do not utilize a

calendar year, the fiscal year typically ended on June 30, 2021.

Information contained in this report was derived from annual facility financial statements, supplemented with additional data supplied by each facility. Every reasonable effort has been made to ensure the accuracy of the information contained herein. Each facility had the opportunity to review its data and to make corrections. The responsibility for data accuracy lies with each facility.

## Pennsylvania ASCs

There were 291 ASCs licensed in Pennsylvania that operated during at least some portion of fiscal year 2021 (FY21). There were 290 ASCs operating during the prior year.

This analysis for FY21 and the individual ASC data tables in this report is based on data collected from 284 ASCs; seven ASCs are not included in this report.

# REPORT HIGHLIGHTS

**Table 1**  
**Ambulatory Surgery Centers Regional and Statewide Measures, FY21**

Region	Operating Margin FY21	Total Margin FY21	3-year Avg Total Margin FY19-FY21	Medicare Share of Net Patient Revenue FY21	Medical Assistance Share of Net Patient Revenue FY21	Average Visits FY21
Region 1	19.40%	20.53%	21.37%	30.21%	4.60%	3,881
Region 2	24.49%	24.83%	20.49%	34.38%	6.96%	4,142
Region 3	18.14%	19.52%	13.71%	30.07%	4.02%	3,091
Region 4	46.47%	46.79%	43.45%	19.13%	9.05%	3,648
Region 5	26.06%	26.48%	24.73%	25.33%	4.97%	5,632
Region 6	38.84%	39.58%	36.37%	36.02%	5.19%	3,873
Region 7	30.21%	31.03%	30.90%	30.46%	6.65%	4,368
Region 8	17.89%	20.05%	20.71%	27.88%	5.63%	3,519
Region 9	11.57%	12.58%	12.88%	32.35%	17.34%	2,572
Statewide	23.87%	24.97%	24.51%	29.47%	8.83%	3,963

- Pennsylvania’s ASCs reported 1.13 million total outpatient visits during FY21 and \$1.53 billion total net outpatient revenue.
- During FY21, the average outpatient revenue per visit was \$1,363 for the ASCs.
- The net outpatient revenue for ASCs increased 22.3% from \$1.25 billion in FY20 to \$1.53 billion in FY21.
- ASCs performed 1.01 million outpatient procedures in FY21 which is an 18.9% increase from the 849 thousand performed in the prior year.
- The total number of outpatient surgical procedures performed during FY21 at ASCs represented 25.7% of the total outpatient surgical procedures in Pennsylvania; the remaining 74.3% were performed at general acute care hospitals outpatient departments.

# INDIVIDUAL ASC DATA

## Ambulatory Surgery Center Data

The tables on the following pages provide facility-specific financial data for 284 ASCs that reported data for FY21. The ASCs are arranged by the PHC4's nine regions.

Operating and total margins for each ASC are reported. Each ASC's corresponding operating income, total income, and total operating revenue can be obtained on PHC4's website, [www.phc4.org](http://www.phc4.org). (Note: Other operating revenue must be included with net patient revenue to calculate the operating income that is used to calculate operating margin.)

Statewide averages and regional averages for the ASCs are presented in each table. The regional averages that are expressed as a percentage (e.g., "3-Year Average Change in NPR" and "Operating Margin") are calculated as if the entire region was a single reporting entity. For example, the regional average operating margins are calculated by adding operating income and operating revenue for all hospitals within the region. The regional total operating income is divided by the regional total operating revenue to yield a regional average operating margin.

# EXPLANATION OF TERMS & MEASURES

**3-year Average Change in Net Patient Revenue (NPR) or Total Operating Expenses (TOE):** The average annual change in the facility's NPR or TOE that occurred from the end of FY18 through FY21.

$$\left( \frac{NPR_{21} - NPR_{18}}{NPR_{18}} / 3 \right) \text{ or } \left( \frac{TOE_{21} - TOE_{18}}{TOE_{18}} / 3 \right)$$

**3-year Average Total Margin:** The average total margin realized by the facility during FY19 through FY21.

$$\left( \frac{\Sigma \text{ revenue over expenses}_{21, 20, 19}}{\Sigma \text{ total revenue}_{21, 20, 19}} \right)$$

**Ambulatory Surgery Center (ASC):** A licensed facility by the Pennsylvania Department of Health that provides specialty or multi-specialty surgical care to patients who do not require an overnight stay but require medical supervision following a procedure. An ASC does not include individual or group practice offices of private physicians or dentists.

**Commercial Third-Party Payers:** Commercial insurers encompass all indemnity and managed care health insurance plans, including Blue Cross and Blue Shield plans, and hospital and health care system plans. Government-funded programs, such as Medicare managed care, are not included even if a commercial insurer administers the program.

**Net Patient Revenue (NPR):** Net patient revenue (net of bad debt) reflects revenue for patient care only and does not include revenue from other operations such as cafeteria, parking, rent, research, and educational activities. Revenue from those operations is included in total operating revenue. NPR may include retroactive adjustments from third-party payers for care provided during a previous fiscal year.

**Other Third-Party Payers:** Third-party payers other than health insurance companies and managed care organizations. These include direct payments by employers or associations, auto insurance, workers' compensation, and government programs (other than Medicare and Medical Assistance).

**Operating Income:** The amount by which total operating revenue exceeds total operating expenses.

$$(\text{total operating revenue} - \text{total operating expenses})$$

**Operating Margin:** The ratio of operating income to total operating revenue. This measure places operating income in perspective with the volume of patient services realized by the facility.

$$(\text{operating income} / \text{total operating revenue})$$

**Operating Visits:** The number of visits to the surgery center or an individual outpatient department of the hospital during the fiscal year.

**Total Margin:** The ratio of total income to total revenue. This measure puts income from all sources in perspective with all revenues received by a facility.

$$(\text{revenue over expenses} / \text{total revenue})$$

**Total Net Income (Revenue over Expenses):** Total net income reflects the sum of operating income and non-operating income. Total net income may also include an extraordinary item.

**Total Operating Expenses (TOE):** All costs associated with operating the entire facility such as salaries, professional fees, supplies, depreciation, interest, and insurance. The acquisition of durable equipment and other property is not considered expenses and is reflected on the facility's balance sheet as assets. However, the cost to finance equipment (interest) as well as the depreciation, operation and maintenance costs of capital equipment are operating expenses.

**Total Operating Revenue (TOR):** All revenues allocated by the facility to meet operating expenses. It includes revenue sources such as net patient revenue, investment income, contributions, and revenue from other operations (e.g., cafeteria, parking, rent, research, and educational activities). Individual facilities may also allocate investment income, contributions, etc., as non-operating income.

**Total Revenue:** Operating revenue plus non-operating income. The non-operating income component typically includes unrestricted contributions, investment income, and net investment gains and losses on marketable securities.

# FOOTNOTES

## Footnotes

1. The end of the fiscal year is not June 30. The data reflects the fiscal year that ended prior to June 30.
  2. FY21 data is less than 12 months; therefore, a three-year comparison is not appropriate for some of the measures.
  3. Prior year(s) reflect less than 12 months of data; therefore, a three-year comparison is not appropriate for some of the measures.
  4. This is the first reporting year for this facility. Expenses are often higher than operating revenue during the start-up period.
  5. The hospital has specialty units such as psychiatric, rehab, long-term care, skilled nursing, etc., which are included in the data presented for the facility.
  6. Extraordinary item is included in the calculation of total margin.
  7. Balance sheet ratios are for the parent organization.
  8. Acquired or merged with another licensed facility during the FY21 reporting period.
  9. Acquired or merged with another licensed facility during the FY20 or FY19 reporting periods.
  10. For-profit facility: total margin for hospitals includes *pro rata* share of the parent corporation's federal income taxes.
  11. Facility is referred to by a different name, or it closed after the FY21 reporting period.
  12. Facility failed to satisfy the financial filing requirements.
  13. One or more of the required financial submissions was filed late.
  14. Facility submitted incomplete or inaccurate data.
- NA Not applicable.  
NR Information necessary to report or calculate this measure was not reported by the facility.

## No Submission

**No Submission:** The following ambulatory surgery centers are not included in this report:

- Bryn Mawr Med Specialists
- Calcagno & Rossi Vein SC (*closed 7/27/2021*)
- Center for Surgical Arts (*changed owner during 2021*)
- Langhorne Access (*closed 3/1/2022*)
- Penn Medicine Radnor SC
- South Hills SC (*closed 8/31/2022*)
- UCPA SC (*changed owner during 2021*)
