Summary & Highlights

Pennsylvania Non-General Acute Care Hospitals Fiscal Year 2025

The Pennsylvania Health Care Cost Containment Council (PHC4) produces a three-part series of financial reports measuring the financial condition and utilization of the Commonwealth's hospitals and ambulatory surgery centers. *Volume Three* presents a financial profile of Pennsylvania's non-general acute care (non-GAC) hospitals, which include rehabilitation hospitals, psychiatric hospitals, long-term acute care (LTAC) hospitals, and specialty hospitals. *Volume Three* provides insight into information surrounding uncompensated care, operating and total margins, and net patient revenue intended to provide stakeholders with fact-based information to prioritize resources and make informed decisions.

The report includes insights into the 69 non-GAC hospitals licensed in the Commonwealth of Pennsylvania that operated during at least some portion of fiscal year 2025 (FY25) with 152 general acute care (GAC) hospitals incorporated for statewide comparative purposes. In the prior year, FY24, the non-GAC hospitals remained the same whereas there were 153 GAC hospitals operating. Two GAC hospitals closed and one GAC hospital opened between FY24 and FY25 reporting periods.

Volume Three shows Pennsylvania's non-GAC hospitals uncompensated care as a percent of net patient revenue in FY25 ranged from 0.21% at long-term acute care hospitals and 1.39% at psychiatric hospitals.

Volume Three shows that in FY25, non-GAC hospitals reported operating margins of 10.15% for rehabilitation hospitals, 5.36% for psychiatric hospitals, 1.23% for long-term acute care hospitals, and -0.07% for specialty hospitals.

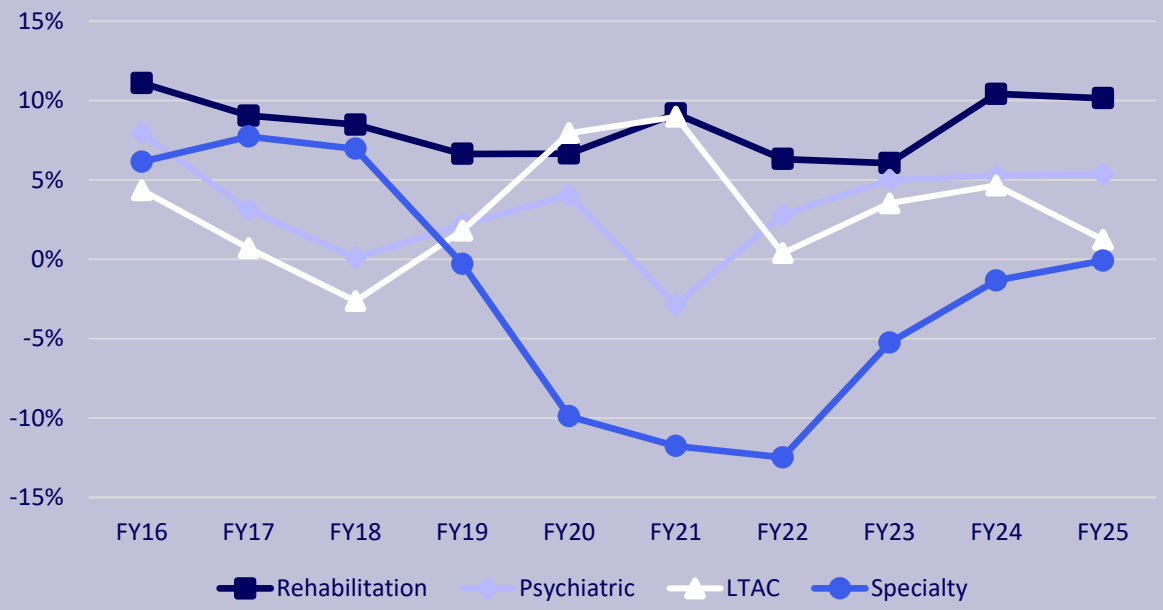

In the graphs below, the first shows the statewide operating margin for the non-GAC hospitals from FY16 through FY25, broken out by facility type and fiscal year as reported in *Volume Three*. The second graph shows the FY25 statewide average net patient revenue and average total operating expense for non-GAC hospitals by facility type.
