Barry D. Buckingham, Executive Director
Pennsylvania Health Care Cost Containment Council
225 Market St.
Harrisburg, PA 17101

Dear Sir;

On behalf of Holy Redeemer Hospital (PAF 2080), I am requesting that the following Comment be posted with the publicly released Common Procedures Report ODR FY 2023.

Spinal Fusion surgery is a complex procedure that involves patients undergoing detailed post-operative care. Extended postoperative length of stays are sometimes necessary for patients with multiple comorbidities and complexities of surgery, which are occasionally observed in our patient population at Holy Redeemer Hospital.

Thank you for your attention to this matter.

Sincerely,

Brenda A. Buzydlowski D.O.
